Key Words : Vanuatu, Nouns, Dictionary, Bislama, English

In the Republic of Vanuatu, there are more than 100 languages¹⁾, and most Vanuatu people speak one of them as a mother tongue in addition to Bislama, a national language of Vanuatu. Tutuba language, a vernacular of Vanuatu, spoken in Tutuba Island has approximately 500 speakers and this is endangered²⁾. Though the number of speakers is declining, the previous research hasn't done, and to the best of our knowledge, Tryon et al.¹⁾ which contained about 300 vocabularies of Tutuba language, is supposed to be the only previous research.

This study focuses on nouns of Tutuba vocabularies, and describes their meanings, usages, and grammatical functions with many examples in Bislama^{3),4)}, English and Japanese. This paper will particularly focus on the vocabularies from M to N, as listed below, and this is the continuation of the paper Nouns in Tutuba Language (H-M), that will be co-published in 2017. The construction of each unit is shown as follows. 1. Tutuba word [part of speech] 2. meaning in Bislama 3. meaning in English 4. Tutuba example sentence 5. the glossary of the Tutuba example sentence 6. meaning of Tutuba example sentence in Bislama 7. meaning of Tutuba example sentence in English.
